

## DEPOSITS IN TULSA BANKS NEAR RECORD

After Absorbing \$14,000,000 in Liberty Loans in 1918 People Have as Much Cash as Ever.

**TOTAL IS NOW \$51,239,265**

Even Flow of Wealth During Period of Great Financial Activity Is Indicated by Statements.

<b>Tulsa Bank Deposits March 4,</b>	
National Bank of Commerce	\$1,035,204.57
Products State Bank	\$319,623.65
Central National Bank	\$555,894.61
Union National Bank	\$151,091.25
American National Bank	\$51,965.94
First National Bank	\$119,828.42
Liberty National Bank	\$274,062.67
Exchange National Bank	\$285,415.25
Total	\$1,239,265.39

Financial statements made by these banks in response to the call of the government shows that there were deposits totaling \$51,239,265.39 in the eight institutions of this city on March 4.

"After having absorbed \$14,000,000 in Liberty loans the deposits have reached the same level of one year ago and we now have \$1,000,000 of the highest point in the history of this city," said Manager Hughey of the Tulsa clearing house, Tuesday.

In the past two years Tulsa has invested in war securities and contributed to war and charity activities a total of \$28,000,000 and the bank deposits, which represent the cash wealth of the people, remain at a normal level.

It is interesting to note how evenly the deposits run in a period of great financial activity. The call of March 1918, showed total deposits of \$52,999,799.49; of May 1918, \$52,336,215.57; and June, 1918, \$52,492,605.89. The December deposits exceeded \$51,000,000, as did the deposits in the March call. The highest record was in March of last year.

## SCOUT CHIEFS TALK ON MANAGING BOYS

Anticipating a large amount of work for the local boy scouts during March, a meeting of scoutmasters was held Tuesday night in the scout headquarters at the Y. M. C. A. under the leadership of John Lindly, scout executive.

L. L. Ohlander, scoutmaster of Troop No. 2, spoke on troop discipline, after which the meeting was opened for general discussion by the scoutmasters present.

"A scoutmaster cannot be a success by bullying or by using harsh words," said Ohlander. "We are inclined to think on some occasions that the only way to get results from the boys under us is to drive them, but in all my experiences I have found that the only way to get results is to be a friend to them, a leader, show them the way and they will follow you wherever you desire."

"Scoutmasters have to be firm at times and they must be respected but the only way to get this respect is to show them that you are their friend and that everything you do for them is for their benefit. It is not easy enough to fool foolish people but it is almost impossible to fool a young boy. Once you lose their confidence it is hard to regain it."

There will be a meeting of all scoutmasters once a month and each scoutmaster will address the audience on a subject which will be chosen from the experiences with scouts in the months. Only the problems that actually arise within the troop will be discussed. In this way all the troops will work together and a better organization will result, said Mr. Lindly.

Saturday 100 scouts will be taken on a hike, leaving the scout headquarters about 7 o'clock in the morning and will stay for campfire.

## CARRUTHERS FLYING FIELD WILL DEMOBILIZE APRIL 1

PONT WORTH, TEX., March 11.—Carruthers aviation field, established by Lord Wellesley, of the English army, and the scene of Capt. Vernon Castle's death as well as of many other accidents, has been officially disbanded by April 1. Orders were received today saying all enlisted men at the field must be discharged by the first of the month.

What will be done with the equipment has not been announced. Two other air fields here are still running, no orders having been received as yet regarding them.

Where high-power electric traps hang like birds' nests in Norway, networks of wires are strung to protect persons using the highway should heavily charged wires break and fall.

Attached to a recently patented mailing cover for catalogues, calendars and other advertising matter is a card with which a recipient can acknowledge receipt of the cover's contents.

**Didn't Have Square Meal in 6 Weeks.**

O. K. Kent, who came in from El Dorado, told us that he had not been able to eat a square meal for some time, as the result of stomach trouble that started about a year ago. He said he suffered with kidney trouble too, was constipated, and practically everything he tried to eat seemed to irritate his stomach and caused pain and belching. "For the past six weeks, said Kent, I have had a square meal, and it seemed like I was about to give up." He was about Orgatone and began eating it and it seemed to just walk away with my trouble. I have taken three bottles of the Orgatone Treatment now and my kidney trouble and indigestion has entirely left me. I eat three good hearty meals every day now."

## Mayor's First Veto May Stop Repairs of Incinerator Plant

Mayor C. H. Hubbard will refuse to sign the resolution provided for in the bill authorizing the city to construct a new incinerator plant until he is positive that the construction bond accompanying the contract for building the incinerator made with the Municipal Engineering company. This announcement was made in the city hall at the meeting of the board of commissioners Tuesday. If this policy is put into practice, it will be the third occasion that the city fathers have exercised the right of negation of the veto since he entered office.

The southern Surety company, maintaining the city, is responsible for the indebtedness of the construction company as the bonding agency for that firm. The proposal of the surety company is that the city repay the contractor from a fund of \$2,000 necessary for the repair of this plant. Mayor Hubbard's contention is that if a construction bond was furnished by the Municipal Engineering company with their contract, the Southern Surety company may be forced to remunerate the incinerator to such extent as the city may desire just.

## STATE DOES NOT WIN IN OIL INCOME CASE

### Full Text of Decision of Supreme Court Awaited to Determine Status.

Receiving of the text of the decision of the United States supreme court is awaited to determine the full import of the ruling on the payment of oil income taxes by the state of Oklahoma.

While the case of Charles R. Shaffer of Chicago against E. H. Howard, former state auditor, and John R. Wooster, former sheriff of Creek county, was remanded back to the lower court with instructions to dismiss the bill for want of proper parties, it is believed by local attorneys that the court expressed an opinion on the merits of the case yesterday in the words of the attorney general, "not so clear as to make the issue world be the same if the proper parties were substituted, and in that event the court might give its opinion on the merits of the controversy without waiting on the new case."

If the action is merely dismissed a new case can be brought by bringing the suit against the present officials, and again carried up. If the court gave an opinion, it would be in a future case it is pointed out, under similar conditions, that the being true, the state would not care to prosecute it. In any event the state is not the winner in the case. Either losing or the case is to be heard over again, if Shaffer decides to start a new action.

This course was indicated yesterday by Judge M. E. Russell of Muskogee, who informed The World by long-distance telephone from the court that he had received a note from the court of today to the effect that the case had been reversed and remanded with directions to dismiss the bill for want of proper parties. He expects to receive the decision soon in order to determine what course to take.

Great interest was manifested in this case yesterday, owing to widely varying reports. It is said that many other cases may be filed on the strength of what the court has actually held. The action by Shaffer was a piteous attempt paying income tax in Oklahoma, as he is a non-resident.

"A scoutmaster cannot be a success by bullying or by using harsh words," said Ohlander.

We are inclined to think on some occasions that the only way to get results from the boys under us is to drive them, but in all my experiences I have found that the only way to get results is to be a friend to them, a leader, show them the way and they will follow you wherever you desire.

"Scoutmasters have to be firm at times and they must be respected but the only way to get this respect is to show them that you are their friend and that everything you do for them is for their benefit. It is not easy enough to fool foolish people but it is almost impossible to fool a young boy. Once you lose their confidence it is hard to regain it."
